

Keynote title: *Romanian inventions and inventors in the field of musical instruments*

PhD, Assoc. Prof. Eng Ionel-Laurențiu ALBOTEANU

University of Craiova, Center for Innovation and Technology Transfer, CITT

Biographical data:

- + Graduate of the University of Craiova, Faculty of Electromechanics, Electromechanics specialization - 2004.
- + Doctor of Engineering in the field of "Electrical Engineering", since 2009, PhD thesis title "Contributions on the use of solar energy in isolated anti-hail stations"
- + From 2004 to the present he is a lecturer at the University of Craiova, Faculty of Electrical Engineering.
- + Member of the research team of the Center for Innovation and Technology Transfer - CITT, Craiova.

■ **Professional skills and areas of interest:**

- + photovoltaic systems;
- + drives, electrical, hydraulic and pneumatic;
- + ventilation and air-conditioning installations;
- + processing technologies and electrotechnical materials.

■ **Publications and professional achievements:**

- + books: 7
- + patents: 2
- + articles in ISI-listed journals and volumes: 20
- + articles in recognized BDI indexed journals and volumes: 46
- + other articles published in journals and volumes: 34
- + International research projects won through competition: 1 -Assistant manager
- + national research projects won through competition: 2 -Director; 8-member
- + internal research projects won by competition: 2 -Director; 1-member
- + research projects with economic operators: 11- Responsible; 12-member
